

The Philosophy of Construction Resources, Inc.

Construction Resources' growth is attributable to its adherence to one overriding and consistent philosophy: we strive to deliver the wide range of quality construction products and services that our customers demand within an environment where building suppliers must have the scale and resources to compete effectively.

Today, Construction Resources, Inc. is one of the largest fabricators of cast polymer, solid surface, granite, natural quartz countertops and glass and mirror products in the Southeast. We operate facilities in Georgia, Florida and Alabama and continue to expand.

Our extensive reach in the Southeast brings many benefits to you, the customer. Operations support one another by fabricating products and sharing the "knowledge, experience and skills of our employees in all the products we manufacture. In addition, the many divisions that make up Construction Resources, Inc. benefit from the purchasing power this scale of operation provides, which in turn, offers you access to the most competitive pricing in the market.

Moreover, a comprehensive portfolio of products allows Construction Resources, Inc. to deliver the bath, kitchen and other products our customers demand – wherever and whenever they require it. Our operation is supported by our experienced and professional staff of hard-working employees, our extensive fleet of over 125 service vehicles that travel between Georgia, Florida and Alabama and by our state-of-the-art facilities.

Sharing knowledge has been at the heart of the Company's management skills since the founding company, Atlanta Marble Manufacturing, Inc., first opened its doors in 1970. This concept of sharing knowledge is designed to speed the flow of best practices and fabrication techniques around the entire company and has been a major contributor to our extraordinary success and growth over the past three decades.

Finally, Construction Resources, Inc. is helping to shape the future of the solid surface and natural quartz countertop industry by introducing new edge profiles and innovative ways to fabricate these products using state-of-the-art equipment, processes and supplies. But our goal is not just to be successful, but also to be respected in the industry for the Company's proud history and for the quality, service and management standards that the company has maintained for over 36 years. Nothing else will do.
