

National StoneWorks, LLC
PRELIMINARY DRAFT --- 333 Words

National StoneWorks, LLC, established in 2005, headquartered in Decatur, Georgia, is rapidly making its presence felt through the commercial construction community in the Southeastern United States.

An affiliate of Construction Resources, Inc., National StoneWorks is an importer (from China) of fabricated natural granite countertops. At the Rosen Shingle Creek Resort, they supplied and installed 2,079 granite countertops in 1,500 guestrooms, 139 suites and in all the common areas of the hotel.

“We were operating on a very tight schedule,” Project Manager, Mike Dunn recalled. “Thanks to general contractor Welbro Building Corp. and owner-developer Harris Rosen, the necessary variances were obtained to bring the job in on schedule,” Dunn added.

According to Brian Knapp, Marketing Manager of Construction Resources, Inc., the company offers a wide array of quality products to the single family, multi-family, and commercial builder including granite, natural quartz, solid-surface countertops, cultured marble vanity tops, whirlpool tubs, bath hardware, shower doors and enclosures, closet systems and vanity mirrors. In addition, Construction Resources also offers gas log and wood burning fireplaces, overhead garage doors, carriage doors, door openers and hardware.

“We are one of the few companies to offer a complete turn-key solution.” states Mitch Hires, founder of Construction Resources Inc. and President of National StoneWorks, LLC. “Within our National StoneWorks division, we supply the materials, take care of the countertop installation and we’re also fully bonded to carry the contract.”

National Stoneworks recently supplied granite countertops and installation at the Cosmopolitan and Piedmont (Atlanta high-rise condominiums), the Dunes Village Resort in Myrtle Beach, South Carolina and also residential housing at the University of Alabama. Upcoming projects include The Park at Allan Station in Allan, TX, Presidio Condominiums in Ft. Walton Beach, FL, and the Broadway Promenade located in Sarasota, FL.

National StoneWorks, LLC is located at 224 Rio Circle, Decatur, Georgia, 30030 with satellite offices in Fort Lauderdale, Florida. Their telephone number is 404-378-2962 and fax number is 404-419-1241.
